

**KOSHER STANDARD OPERATING PROCEDURE FOR
ROASTERY 7**

ADDITIVES:

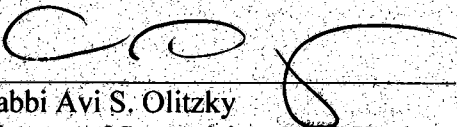

Any of the super-infused coffees (flavor additives) will only be used provided they are labeled with a kosher symbol (heksher) from a nationally recognized supervision agency.

DAIRY INGREDIENTS:

Because the supervision agreement between ROASTERY 7 and MSP KOSHER stipulates that ROASTERY 7 produces PAREVE coffee, no additives or agents in the production process will be dairy (e.g., Casein or Sodium Caseinate), dairy-based, or dairy-derived.

GREASES / OILS:

No animal-based oils or greases will be used as lubricants for any of the machinery involved in assembly and/or production.

Rabbi Avi S. Olitzky
Director of Supervision, MSP Kosher
